PLUMBINGSERVICEGTA.COM

PRICES EXCLUDE HST

You hear the price before anyone picks up a wrench. A call-out is \$160 and covers travel plus the first hour on site — most small repairs finish inside it. After that it is \$110 an hour per technician.

LABOUR

Call-out — travel and the first hour **\$160**
Most small repairs finish inside it

Each additional hour, per technician **\$110**

On a service agreement — from arrival **\$110**
No call-out fee, 24/7 callout

DRAINS & SEWERS

Main sewer line clearing **\$560**
Single-family home, accessible cleanout

Main line with a camera, same visit **\$780**

Sink, tub or one blocked fixture **\$160**

Hydro-jetting, on its own **\$440**

Hydro-jetting added to the same visit **\$220**

GOOD TO KNOW

On-site assessment behind a fixed quote **Free**
No obligation to go ahead

Inspection fee, if we do the repair **Credited**

24/7 callout **Included**
Premises on a service agreement

Everything larger is quoted as one fixed number beforehand, never as an open hourly job, and the assessment behind that quote costs nothing. If a price has to change, you hear it on site before the work starts — not on the invoice afterwards.

CAMERA & LOCATING

Full sewer main inspection **\$440**
Recorded video and a written report

Branch line or single fixture **\$220**

Added to a drain clearing **\$220**

With sonde locate — position and depth **\$560**

CITY REBATES

Toronto, per property **\$6,650**
Valve \$1,600 · sump pump \$2,250 · backup \$300

Vaughan — 50% of the invoice **\$750**

Richmond Hill **\$1,500**

FIXED PRICE, QUOTED FREE

Backwater valves · sump pumps · water heaters · bathroom and kitchen rough-ins · line replacement · excavation **By quote**

WHY HALF PRICE

Camera work and hydro-jetting drop from \$440 to \$220 on the same visit as a clearing. There is no second trip, so you do not pay for the drive twice — and you keep the footage either way.

WHAT MOVES A PRICE

Access, mostly. A main line with a proper cleanout is \$560; the same line reached through a pulled toilet or a roof vent is more work and is quoted separately, on site, before we start.

PERMITS AND REBATES

We take out the building permit and meet the inspector ourselves. Without both, the city will not approve a rebate — most horror stories about that money start with work done without a permit.
